STATE OF AFFAIRS

Real estate investment is considered a safe and attractive investment that generates high returns with moderate risks. But many limitations and barriers to entry remain. Thus, owning a property is not as accessible and easy as it should be. Transactions (purchases, sales, exchanges) are tedious and costly
-A large number of intermediaries and costs limit investment opportunities
-Fractional investment does not exist and minimum requirements are too high
-Foreign and/or trading/high profit properties are difficult to access
-Rarely possible to manage a portfolio of dozens of properties without going through a manager and increasing costs.
-Unfair and inecient monopolies (notaries, brokers, administrations).

STATE OF AFFAIRS

Real estate investment is considered a safe and attractive investment that
generates high returns with moderate risks.

But many limitations and barriers to entry remain.Thus, owning a property is not as accessible and easy as it should be.

· Transactions (purchases, sales, exchanges) are tedious and costly

- -A large number of intermediaries and costs limit investment opportunities
- -Fractional investment does not exist and minimum requirements are too high
- -Foreign and/or trading/high profit properties are difficult to access
- -Rarely possible to manage a portfolio of dozens of properties without going through a manager and increasing costs.
- -Unfair and inecient monopolies (notaries, brokers, administrations)

NNC CRYPTO CIRCULATION

Investors have two choices, invest in properties directly available on the NNCOIN platform and receive an
Income equivalent to their shares held through the NNC.
Or invest in the NNCOIN company with the NNC Coin for speculation and long-term investment purposes. (They Will still be able to invest in assets as well).
Choice 1 Investing with NNC (NNCOIN stock performance): -
1-Investors send any crypto and/or traditional currencies to NNCOIN.
2-They receive NNC tokens in their online accounts, on their virtual wallets.
3-They browse the deferent properties rigorously selected by NNCOIN.
With the NNC tokens they allocate them freely in the desired performance
4-They receive monthly rental income and annual capital gains income.
5-They can choose their favorite currencies NNC and/or other currencies.
6-They have the choice to reinvest, withdraw, exchange, transfer, spend at any time.
Choice 2 Invest in NNC (NNCOIN's general performance)
>> The NNC coin provides the same functions as the NNC plus token.
1)Ability to trade NNC on crypto trading platforms
2)Flexible pricing with strong growth potential for long term investment.
3)Gives access to the Priority Investor Pass (insurance, bonus, no fees).

EXISTING SOLUTIONS

Real estate crowdfunding platforms are the only solutions available on the market. They oer the possibility to invest in a fractional way, to get dividends on the rents and capital Gains on the properties.
But we consider these platforms as "hybrid" solutions giving access to a right of "co-ownership" and therefore according to us, they do not in any way provide the possibility to invest in a fractional way.
In the last few years, these platforms have opened up the crowdfunding market and made People aware of the potential of fractional investment and the strength of a liquid real estate Market.
However, they remain very limited in their investment choices, despite their strengths, they Require a fairly high minimum investment, and the shares purchased must be held for a certain period of time, which makes transactions between owners tedious and costly.
Therefore, not everyone and has easy access to real estate investments. Particularly when it comes to the Properties that oer the best returns, small investors are left out of these types of investments meanwhile they could make the market liquid.

THE ADVANTAGES OF NNC

The NNC Coin has the same properties as the NNC Token on the platform but can be traded on crypto Exchanges which means that its price will be volatile.
We have designed the NNC Coin while aiming at a natural increase of its price, based on the growth of NNCOIN.
Investing in NNC exposes investors to certain risks of loss as it is directly subject to the supply and Demand of the market.
But, the profit potential is also high
We expect stabilize once the platform goes live, then its price can grow organically with the platform. (more details in the NNC price analysis).

ADVANTAGES TO USE NNC

We are convinced that the best option for investing with NNCOIN is to use Both Cryptos.
Investing in NNC increases the risks but in a suitable way increases theopportunities for profit, investing in Properties using NNC reduces the risks and provides a monthly income.

NNCOIN VISION

Tokenizing real estate worldwide is one of the major Concrete applications of applications of blockchain.
We believe that this opportunity is quite large for us and Us and other players in the market. Any investor can exchange investment shares instantly; thus, we bring liquidity.
To the real estate market allowing for instantaneous real Estate transactions, at lower costs and higher profitability.
These transactions are fully transparent, secure and Recorded on the blockchain, which means that
Investors now have the ability to make informed decisions, with open access to decisions, with open access to The performance of each property (such as Occupancy rates, number of past transactions, rates of Return, appreciation rates of return, appreciation, etc.).
Our goal is to provide worldwide access to real estate investment.
They can choose the number of shares of participation they wish to obtain from an apartment, a house, an oce, a piece of land, etc... By investing, they build their own real estate portfolio and can manage it as they want.
We expect better returns than most competitors in the in the real estate industry.
The current solutions do not use blockchain for their real estate, which significantly reduces profits and opportunities.

THE CONCEPT

NNCOIN’s mission is to allow anyone to become a landlord by oering the possibility To invest instantly in real estate worldwide. Around the world.
Through the tokenization of real estate located around the World, NNCOIN allows anyone to create and manage a real Estate portfolio by investing in the properties oered on its Platform NNCOIN.com.
Investors receive their share of the rents, as well as the respective capital gains of their investments.
Properties are tokenized through smart contracts on the Binance Smart Chain. The NNCOIN platform is easy to use, And requires no minimum investment. We take care of the Management of the properties, once the investors distribute Their investments to the properties of their choice, they Receive instantly and automatically the ownership of their Assets and the respective gains of the rent losses and capital Gains. The profits generated by the monthly rentals of the Tenants and the capital gains of the properties are redistriButed to the investors every month.
To support its operational activities, NNCOIN collects various sources of revenue, more details in the "revenue sources" section. Its main income is based on profits generated from rentals and capital gains by charging a 10% fee on the benefits. It is therefore in NNCOIN's interest to carefully research, analyze and negotiate the best terms and conditions when buying properties oered on its platform. Holders will benefit from the Priority Investor Pass, as long as they invest a minimum of $5000 in the Holders . This pass gives access to premium features (including a bank account and NNCOIN bank card to interact, pay, trade, BAT and/or crypto-currency see PIP section for more details)

EXPLORE THE INVESTMENTS OFFERED ON NNCOINCOIN.net

NNCOIN team and its partners search, analyze and negotiate the best investment Deals all over the world.
The properties oered are varied, such as villas, apartments, oces, all over the
World such as Dubai, Bali, Croatia, Portugal, etc. (more details in the section “NNCn-Ca’s real estate investment strategy”)
Investors create their own portfolios of properties with dierent levels of risks and Returns.

CHOOSE YOUR PROPERTIES

Investors choose the properties they want to invest in.
They can buy shares of properties directly with traditional FIAT currencies but,
they would have a better rate using our NNCOIN tokens (NNC (more details in the "Tokenomics" section)
Investors can easily and instantly withdraw and/or exchange their allocations.

RECEIVE MONTHLY INCOME FROM RENTALS AND CAPITAL GAINS

Every month, investors receive their rental income payments on the properties managed by NNCOIN.
Each time an investor wishes to sell some of their units, they get back the current value of the property.
If there are capital gains/losses he receives his principal investment with the payment of the capital gains/losses.
NNCOIN selects properties with high earning potential, but the profitability is strongly linked to the real estate market,
so it is possible that investors exposethemselves to a potential risk if the value of the property decreases.
NNCOIN has insurance to compensate for such losses(more details in the NNCOIN insurance section).

COLLECTION OF PROFITS

Investors are free to decide how they receive their income, NNCOIN oers two tokens. $NNC , the NNC token represents the whole NNCOIN company and its price is volatile.
The NNC Token represents the shares of properties whose price is stable, fixed at $1 (more details in the Tokens section). To resume, the NNC token has a strong growth potential but represents more risk.
The NNC is more stable and represents only the shares of apartments and their returns We have set up this system to satisfy all types of investors.
We encourage to use both tokens in order to optimize the returns while minimizing the risks.
You have the possibility to exchange tokens instantly for traditional.

PERCEIVED BENEFITS

Once the profits are received, you are free to reinvest them, withdraw them, or exchange them for other cryptos and/or FIAT but you also have the possibility to use your Tokens thanks to NNCOIN BANK. Which oers a credit card that they can use for real and online purchases.
Reinvesting in the platform unlocks bonuses, and gives access to premium features.
(more details in "Investor Priority Pass")

NNCOIN

NNCOIN’S STRATEGY

NNCOIN is looking for the best investment opportunities around the world.
After analyzing the attractiveness of the investments, NNCOIN’s team and its partners select the best properties
Once the selection is made, NNCOIN negotiates the terms and conditions and proceeds with the acquisition of the Properties.

NNCOIN also takes care of the legal, contractual, insurance, and rental management aspects with the support of its
Local partners. The properties are then added to the platform and tokenized for the investors.
Types of properties : NNCOIN’s objective is to oer a wide range of investments, including all kinds of properties
Such as primary residences, secondary residences, professional and/or personal rental investments

NNCOIN also proposes prestigious real estate, leisure properties, professional oces etc...
Even datacenters or service residences.
The selection process: We evaluate the potential of each property.

These properties must pass a number of criteria before
being added to our analysis list.
Management costs : Partner rental agencies and real estate agents (cost of approximately 4% to 7% depending on location).

THE PRIORITY INVESTOR PASS

The Priority Investor Pass is a premium feature of the NNCOIN platform.
Any investor who staking a minimum of $5000 of NNC
will automatically get it.
The benefits of the Priority Investor Pass.

-Access to the best investment oers (quality, performance, return)
- No fees or limits on withdrawals or spending
- Free NNCOIN bank account and free mastercard
- Free exchange rate between FIAT and cryptos
- 5% bonus on capital gains
- No deposit required to participate in an investment.

NNCOIN FINANCIAL INSURANCE

NNCOIN has created a reserve that will be used as an insurance fund.
This insurance is set up to compensate for any potential financial losses That may happen in connection with NNCOIN's real estate investments.
Imagine that there's no tenant, the rent is not paid. An incident occurs or The value of the property decreases in value ?In a second phase, as NNCOIN grows, the reserve will grow with it.
When a new asset is added, (≈ 10%) of its value is placed in the reserve.
This insurance reserve grows in parallel with the platform (More details in the price part of the token).

Investors can get the priority investor pass after the listing by stacking 750,000 NNC for 6 months.

NNCOIN BANK

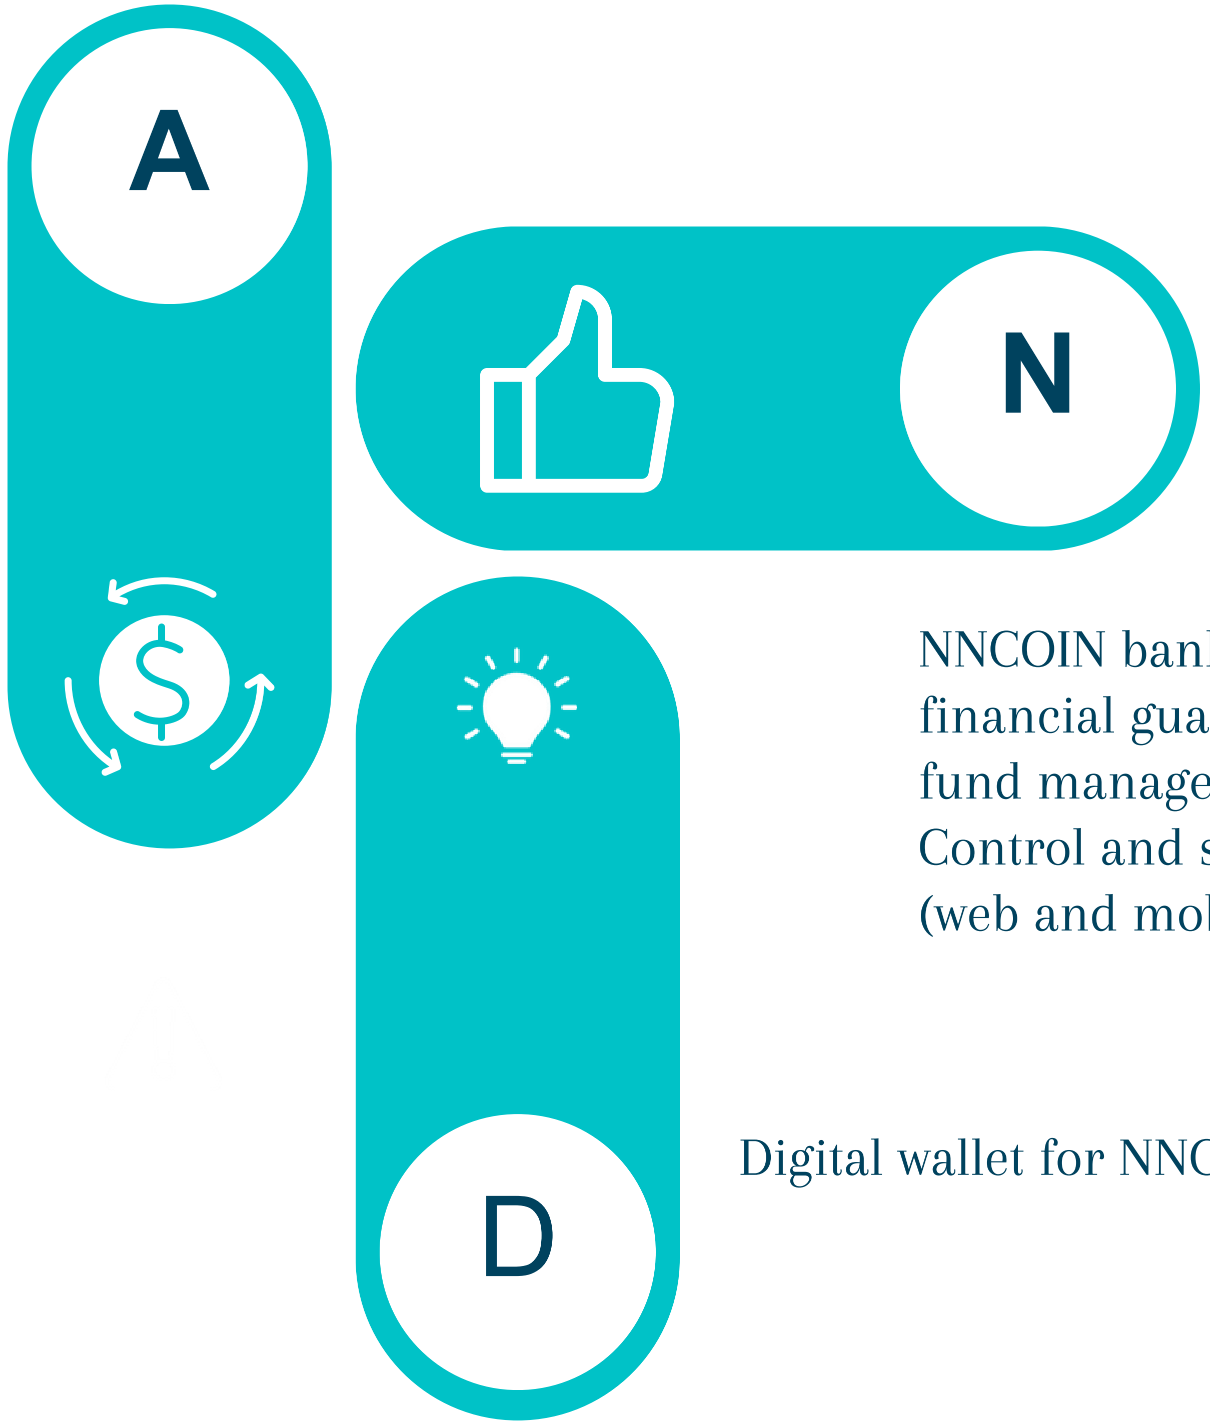
NNCOIN Bank allows investors to pay and exchange directly their cryptos.
Oering all the services of a neo-bank, NNCOIN Bank helps you to manage fiat currency and crypto-currency under the same account.

Investing in blockchain and related projects is trendy, however, there are still many sticking points and diculties with traditional banking solutions, especially in the crypto-currency investment cycle.
Traditional banks do not oer what crypto investors are looking for, therefore a growing number of people are looking for alternative banking solutions.

With this in mind, NNCOIN created NNCOIN Bank which with its leading position in blockchain technology oers an innovative experience, a system that is easy to use, participatory and designed by crypto investors for crypto investors.

BANK FUNCTIONALITY

A bank account with an IBAN for currencies, the possibility to make SEPA, BIC/NNCFT transfers and
International payments with a debit card (Mastercard).



NNCOIN bank also oers insurance of financial guarantees, cash management , fund management,
Control and savings account, online banking (web and mobile), global investment transfer

Digital wallet for NNC, and other cryptos

BANK ADVANTAGES

NNCOIN Bank manages property lease payments using the blockchain to automatically redistribute the respective Allocations to investors, to their NNCOIN account in fiat and/or Cryptos.
Investors can then instantly exchange, transfer, withdraw and pay with
All crypto and/or FIAT currencies. NNCOIN Bank oers the same advantages than neo-banks with the possibility of Having a digital portfolio including all services and currency exchanges all-in-one under a single account.
The objective is to allow all crypto holders to store their Cryptos (including NNC) in a digital wallet to easily Exchange them for traditional currencies.
NNCOIN investors can choose to receive their rental payments and real estate gains in NNC tokens Directly to their crypto bank accounts.
In addition to better currency management, this feature using a payment card allows to customers to use all currencies for daily online and oine needs

UNSOLD TOKENS

Unsold tokens will be held in the NNCOIN pool. They will be used for new investors who wants to invest after the listing . They will be available at a better rate than on the exchange platforms (5%) but they will be vested for a certain period of time. These tokens will be released sparingly depending on market conditions and the evolution of the price.These tokens will act as a price stabilizer.
The NNC tokens in reserve can also be used be used for other purposes such as loyalty reward programs, marketing activities and and other future services. They can also be purchased live through an API connected to the exchanges. NNC in reserve are locked for 10 years, unlocked gradually.

Ues of FUNDS

NNCOIN Bank Reserve: -

NNCOIN will use 10% of the funds raised as a reserve.

This reserve will be used to redeem NNC Coin when investors

Wish to resell their tokens in traditional currency without forcing NNCOIN to resell the properties.

The funds will also be used in the banking service for investors

With the Priority Investor Pass to spend their coins with their Bank cards.

The bank reserve will be used to pay the merchant in traditioNal currency.

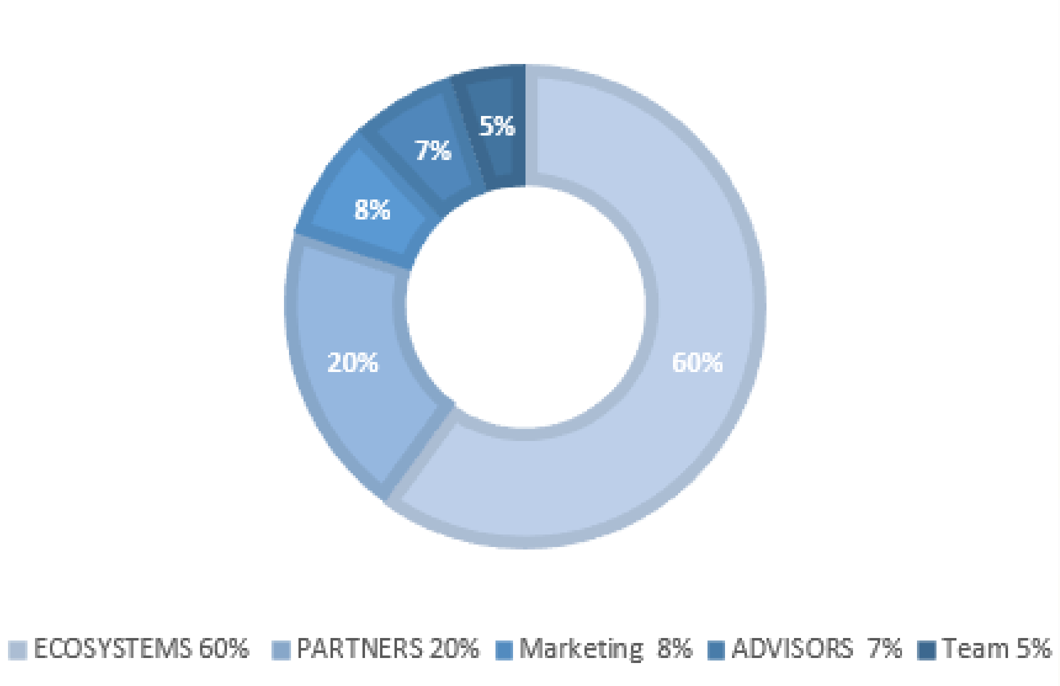
ECOSYSTEM devolpment 60%

NNCOIN will use 60% of Token sale after listing to

(ECOSYSTEM devolpment) In the form of real estate property also buying and developing an island in 2024.

that will then be on the NNCOIN platform (More details on the type of properties in NNCOIN's investment strategy release).

- PARTNERS 20%
- Marketing 8%
- ADVISORS 7%
- Team 5%

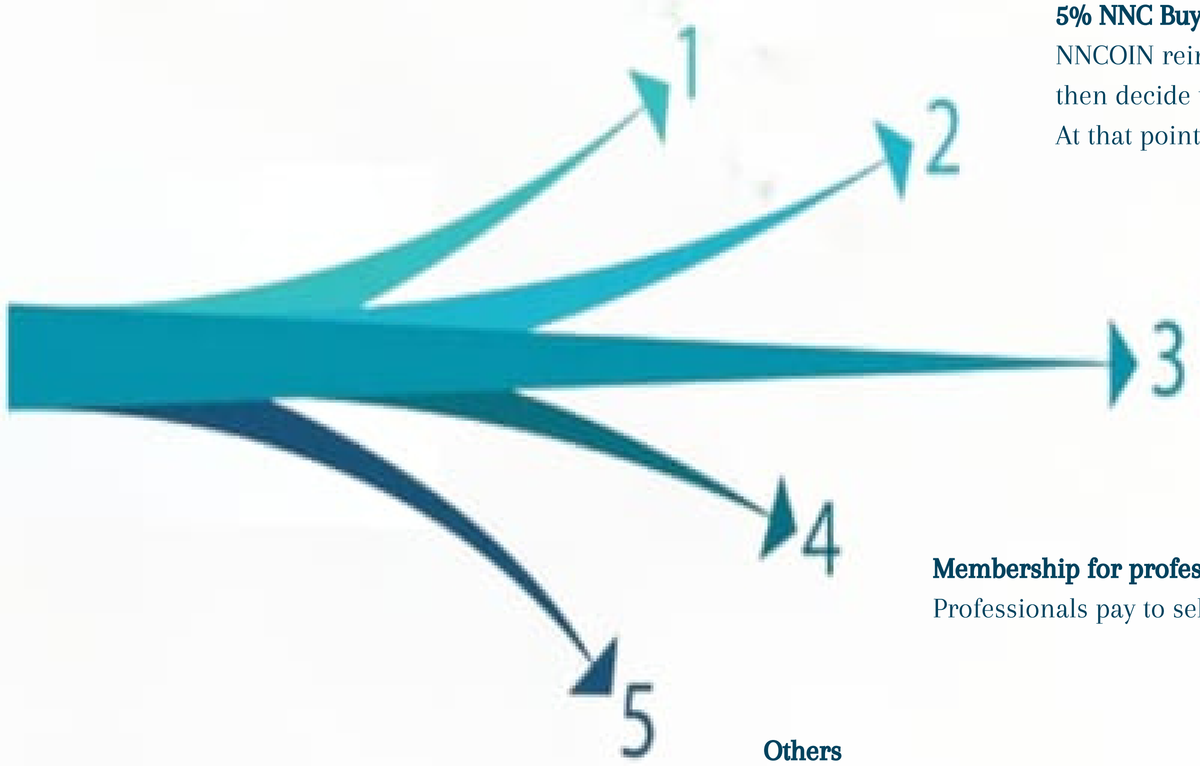


TOKEN ALLOCATION AND DISTRIBUTION

The total supplmetho10,752,000,000 NNC, the supply is distributed according to our distribution policy Detailed in the table and the diagram.

ECOSYSTEMS 60%	PARTNERS 20%	Marketing 8%	ADVISORS 7%	Team 5%
6,451,200,000	2,150,400,000	860,160,000	752,640,000	537,600,000

BUSINESS MODEL



10% commission on rental income and capital gains

NNCOIN (.......... LTD) generates revenue in the same way that users/investors generate their own income.
NNCOIN takes a 10% commission on investors' profits.

5% NNC Buyback

NNCOIN reinvests 5% in NNC every time a new investor get a property and then decide to sell it 5% of the capital gain Will be used to buyback NNC.
At that point, the NNC price increases in value.

Priority Investor Pass Membership
(for non- Holders)

In order to benefit from the best possible oer on the platform (high return potential), investors must subscribe to the PIP membership.

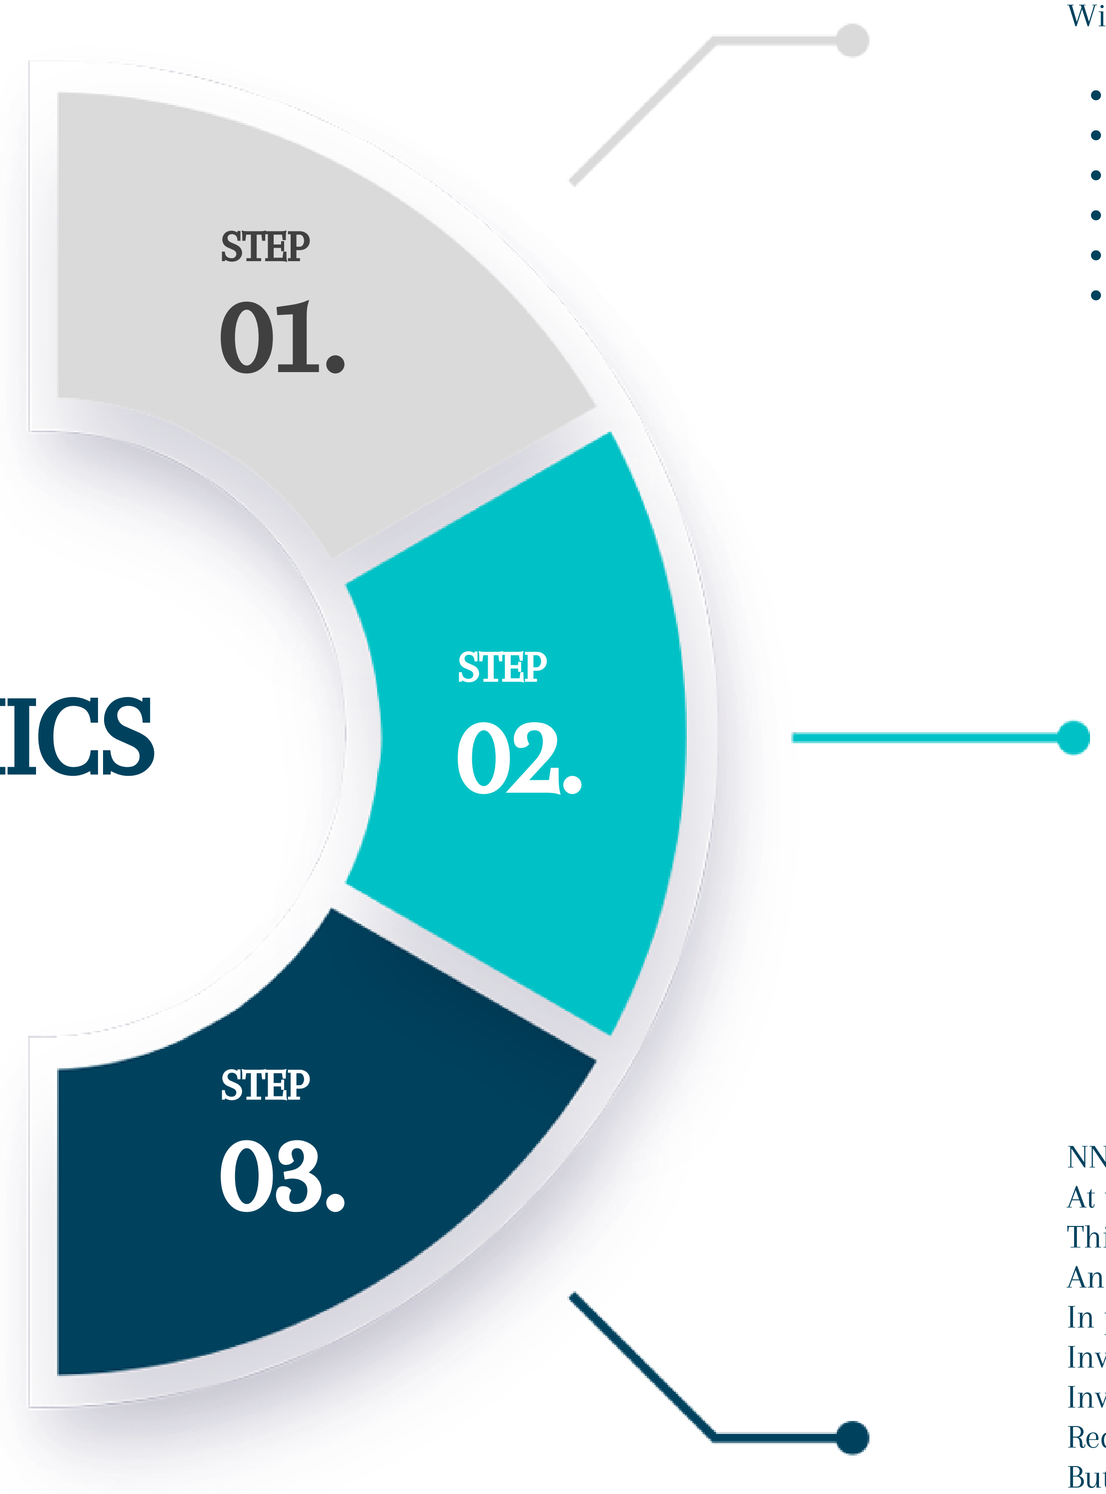
Membership for professionals

Professionals pay to sell or rent their property, with NNCOIN acting as a as a broker.

Others

Rental activities, leisure services (vacations and resorts),
other assets cleaning services, Others

TOKENOMICS



Benefits of NNC

The NNC Token is internal and external to the NNCOIN platForm.
It represents the performance of NNCOIN and the growth of
NNCOIN as a whole.
Investors can trade on the trading platforms and/or use
Them on the NNCOIN platform. It is designed to grow in line
With NNCOIN and can also be allocated to properties.

- Property Financial Actions
- Allows access to locative Income
- Provides access to capital gains
- Appreciation of intrinsic value
- Compatible for trading
- Access to Priority Investor Pass features.

ADDITIONAL INFORMATION

The NNC Token will be issued on the Binance Smart Chain,
This choice is totally considered, the BSC could certainly be
Qualified as a little « old school », we would understand your
Point of view, nevertheless this is one, see the most used
Chain, it also ensures our investors low costs/investment
Costs for all amounts. In addition, most neophytes first go
Through the Smart Chain Binance, which correlates perfectly
With NNCOIN's goal : The democratization of decentralized
And tokenised real estate.
Although mentioned above, we would like to remind you
That the tokens of the founders & associates are in linear ves-
Ting for a period of 3 years, an unlockable % will be allocated
To them each month

Post- listing Procedure

NNCOIN will do its utmost to preserve the price of the token
At the listing and will work to avoid post-listing dumping, in
This sense NNCOIN by implementing actions will anticipate
And try to avoid this dumping, the actions that will be put
In place include : (not exaustive), NNCOIN will oer stake
Investors to block their tokens in advance in property,
Investors will then benefit from preferential rates (we will
Reduce our fees), this will help reduce volatility and contri-
Bute to the scarcity of tokens.
In addition, during the listing, preferential rates, however
Less advantageous, will also be proposed for blocking Tokens.

NNC PRICE ANALYSIS

What is the price of NNC based on ? What causes it to go up or down ? What are the mechanics behind ?
The NNC is designed to grow organically in line with NNCOIN.
The price of the NNC is based on the performance of the platform and not only on the speculative trading.
We believe that the NNC price will be primarily influenced by :
The choice of trading platforms and their speculative activities
The performance of the properties oered on NNCOIN.com
The growth of the number of investors interested in the properties on NNCOIN.com
Growth and number of properties and their diversity
The execution capacity of the NNCOIN team
Speed of post- listing expansion
Reinvestment of tokens through rentals and capital gains
Number of members or Priority Investor Pass
Pools and Master nodes
Other elements (NNC expenses, professional clients, market, etc.)

Mechanics to increase the NNC price.

The total number of NNC at the beginning is 400.000.000 NNC.
In order to increase its price naturally with the growth of NNCOIN, we have set up several
several systems to decrease the available quantity of NNC token.
The amount of NNC available decreases with the increase of the number:
Of investors investing in NNCOIN's assets
Investors investing in NNC on a long-term basis
Properties tokenized on NNCOIN com
Members of the Priority Investor Pass (Requires blocking NNC)
Transactions in real estate shares made (Blocking)

LAUNCHPAD NNCOIN

When a new property is launched on our platform, a defined percentage of it will be distributed to NNC holders in the NNCOIN LaunchPad.

Between the announcement of a new property on NNCOIN and its Listing, you will be able to lock your NNC in the Launchpad to obtain a Reward equal to your participation.

The more participants in the Launchpad the lower the rewards, but this Will make the price of the NNC token to rise in parallel. In addition, it Allows you put your NNC at work between property sales.

This mechanism would allow us to distribute gifts to the community While helping to create buying pressure on the token since the fewer Tokens there are in circulation, the higher the price will be.

The percentages distributed will vary between each property depending on its profitability and price.

NNC BLOCKED BY INVESTOR PURCHASE

Date N- Investor Invests in the property

1.Navigates the platform and selects an investment.

2.He invests by allocating his tokens to specific properties.

3.He receives a monthly rent on his percentage of participation.

In parallel, NNCOIN

- 1.Buys an equivalent of 20% of the amount invested in NNC tokens.
- 2.NNC Tokens equivalent to 20% are purchased on the basis of the live price.
- 3.These NNC Tokens are taken o the market and locked in.

NNC UNLOCKED THROUGH INVESTOR SALES

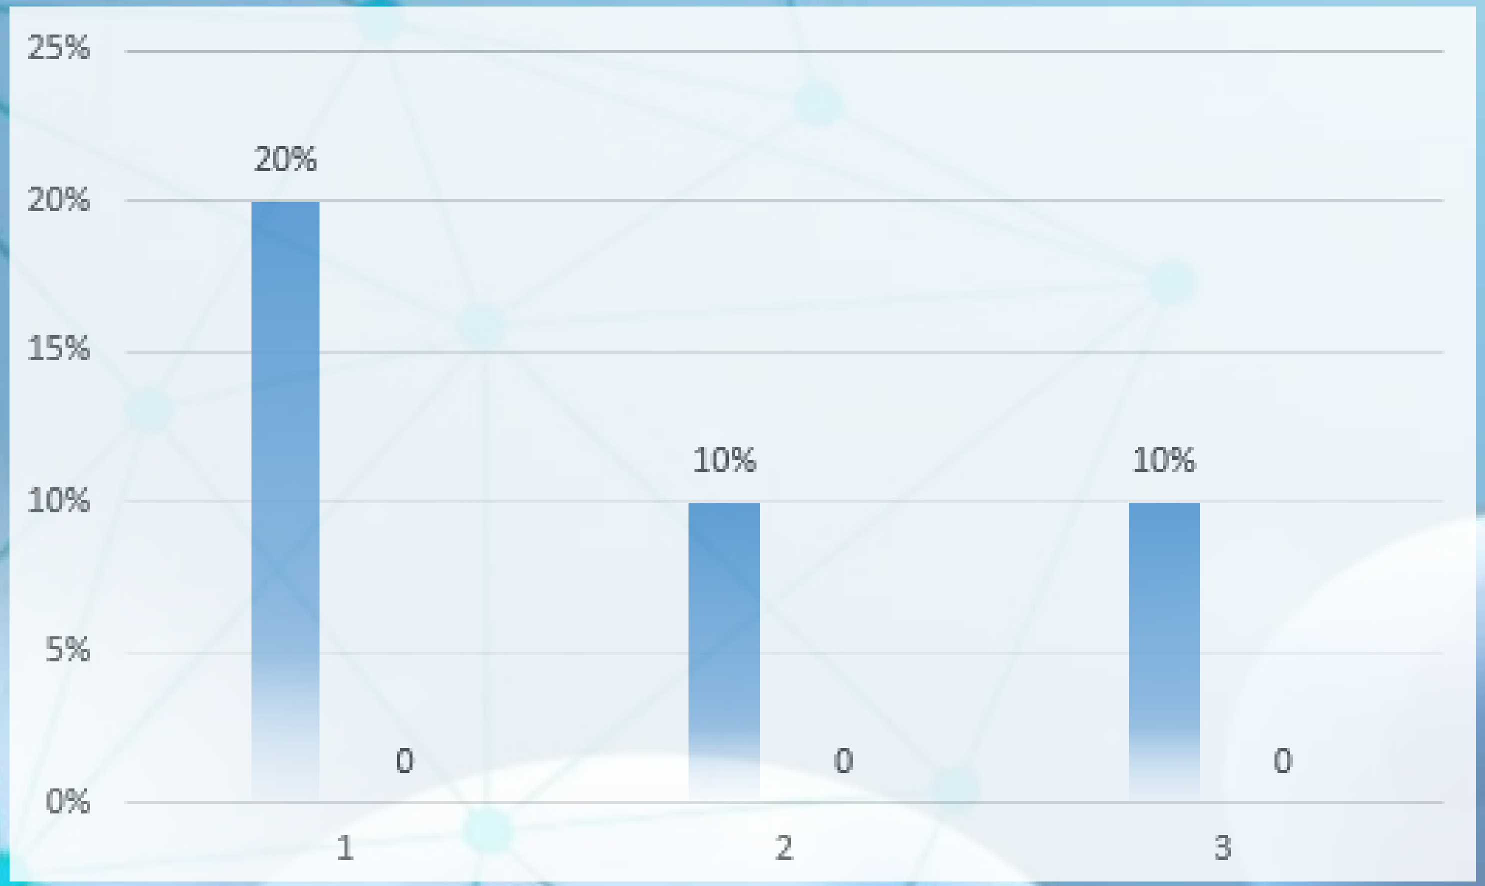
Date N + 1 Divest

He releases the shares to NNCOIN or directly to another investor.

He ceases to receive his monthly pension

It receives the equivalent in paid-up value + gains from its investment

It may decide to receive in any currency/reinvest fully or partially.



In parallel, NNCOIN

Unlocking the NNC is equivalent to

20% locked on the day of the investment.

10% are sold on exchanges for NNCOIN expenses.

10% are sold on exchanges used as insurance for the priority investor pass.

NNC LOCK

For each new transaction (purchase / sale of real estate shares), the number of NNC available decreases. When an investor buys shares of a new property on NNCOIN.com property, NNCOIN also buys NNC in parallel on the trading platforms (at market rate).

The NNC redemption is fixed at 5% of the of the transaction amount.

These NNCs are then linked to the investors' transaction and are blocked until the day they are until the day they decide to sell their shares.

At that time, NNCOIN will release the NNC and divide its use into two parts : Reserve and Insurance.

Reserve 50% (2,5%): The NNC are put in reserve and can be used by NNCOIN to promote activities and/or resell them as an additional source of income. Insurance 50% (2,5%): NNC are sold at market rate, then placed in the insurance fund.

ADDITIONAL INFORMATIONS

Type of investors and users.

Investors buying the NNC and Holders participants are generally motivated by high returns.

Investing in the NNC coin gives access to real estate investments but also represents an investment in the comPany, NNCOIN.

NNC investors are looking for more stable and secure returns based primarily on real estate returns by investing in specific properties and therefore less risky.

In addition to these two categories of investors, real estate agencies and developers, rental agencies and pri-Vate individuals can also use our platform as a financing and communication tool for buying, selling and rentals (short, medium and long term).

Legality and compliance.

The token allows to participate and contribute to the project as well as access to the financial service. When an Investor allocates cryptos to a property of his choice, he receives their respective share of the monthly rent and Potential capital gains.

He can also spend his cryptos as he wishes.

The tokens does not represent a title to property in the legal sense, the investors do not own a part of a property by having invested tokens because they do not have a notary to confirm their ownership.

The token represents a private agreement between NNCOIN and its investors, NNCOIN is the legal owner with 100% of the legal shares and assets.

The token also represents a means of payment in the services oared by NNCOIN Bank. Using tokens also Allows to reduce commission fees and access to premium usage features.

NNCOIN can provide you through its real estate investment fund, which is at Tache to it, with ownership shares (percentages of units) of real estate in Which investors would have placed their NNC.

NNCOIN is divided into two parts, the own Entity NNCOIN, and the parent entity and The real estate investment fund SMART .... LTD based in London,in England.

Further, the blockchain and its transactions being totally public, this one will Serve as proof.

TECHNOLOGY

There's loads of benefits of real estate tokenization on the blockchain. The use of blockchain allows to manage all transactions in a secure and transparent Way This allows investors to invest in properties that they do not have access to Transactions are now instantaneous and free of charge.

Since NNCOIN's transactions are stored in the blockchain, buying, renting and receiving Dividends takes less than a minute !

When buying a part of a property, the shares are blocked by our platform and Attached to the decentralized portfolio in the Blockchain.

When another person rents this property, our platform verifies the records in the Blockchain, Calculates and distributes the rental income immediately according to our predefined property management rules.

Investors can also market and trade a portion of any property on a peer-to-peer basis any property peer-to-peer by managing its portfolio through the trusted third party.

And because the private key acts as a proof of ownership, our platform can securely verify that the digital signature attached to each transaction corresponds to the owner of the assets and authorizes the transaction accordingly.

THE RISKS

It is in NNCOIN's interest to analyze and carefully select the best properties before oering them for tokenization on the platform.

Despite the fact that NNC is designed to increase in value and decrease in quantity, we are not able to promise that its price will be constantly growing.

Many parameters are not under NNCOIN's control, which may result in potential losses for NNCOIN investors.

Being in a very early stage of development, investors are exposed to several internal and external risks (Market, regulation, team, competition...) In case NNCOIN is in a dicult financial situation,the properties have a guarantee role and will be sold.

All the investors holding shares in the properties are then assured at all times to recover the value of their real estate investments. In the event that there is no tenant, the rent is not paid, an incident occurs or simply the value of the property

suers a loss, NNCOIN has set up an insurance fund to compensate for this type of risk.

Any investor holding the Priority Investor Pass benefits from the insurance fund to compensate for any losses.
